It has been advised that due to the original constitution not being previously available to all members on the website, and that highlighting changes had not been completed that the changes to the constitution could not go ahead. There were also a couple of emails from members regarding changes that have not been addressed and will need to be forwarded to the committee. There is also a requirement of 75% of members present to vote at the meeting for changing the constitution, so the adoption of the updated constitution has been held up at this point in time.

The committee members are Loris Hendy, Peter Daniels and Debbie Jones.
